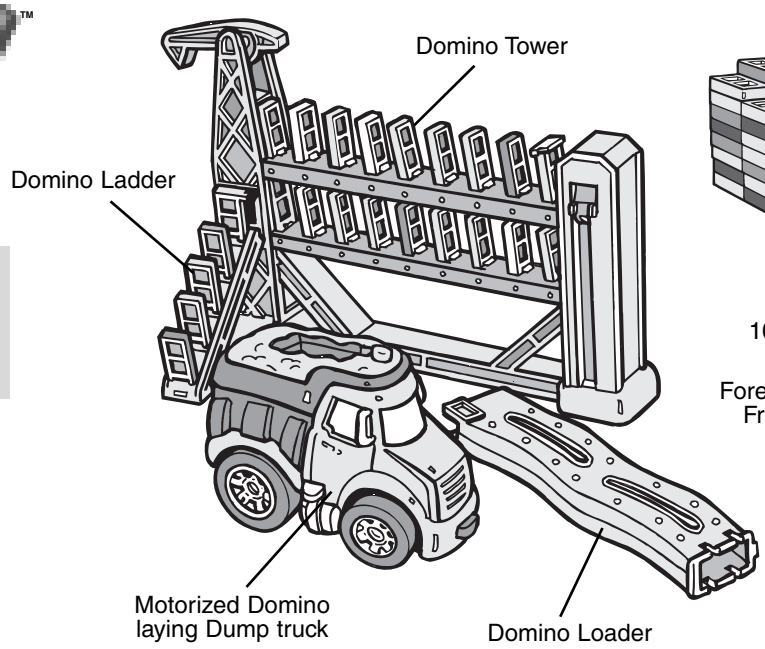
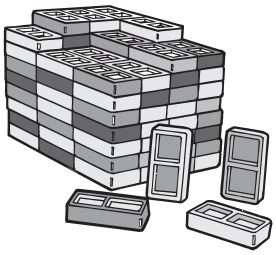
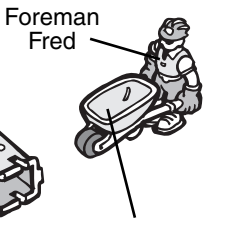
Set 'em up and knock 'em down with two tiers of domino action. The Dump Truck set is the ultimate domino building game. Load the truck and it automatically sets 'em up.

Set Includes:
- 1 Domino Tower
- 1 Domino Ladder
- 1 Motorized Domino laying Dump truck
- 1 Domino Loader
- 1 Wheelbarrow
- 1 Foreman Fred
- 100 Dominoes

Required:
- **2 "AA" Alkaline batteries (not included)**
- **Small Phillips head screwdriver**



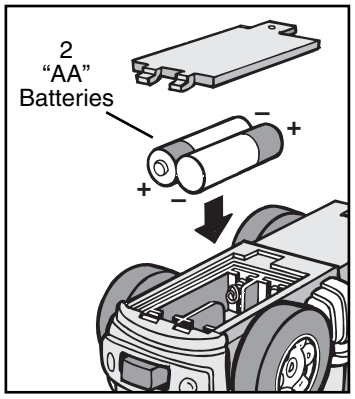




INSTRUCTIONS

Battery Installation

1. Using a Phillips head screwdriver, unscrew and remove the battery cover.
2. Insert 2 "AA" alkaline batteries as shown, making sure that the (+) and (-) are facing the correct way.
3. Replace screw and battery cover.

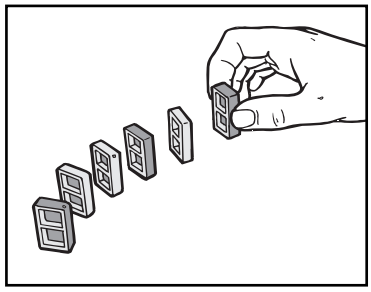


Playing

Knock-it-down BLOCKTOWN performs best on a clean dry surface.

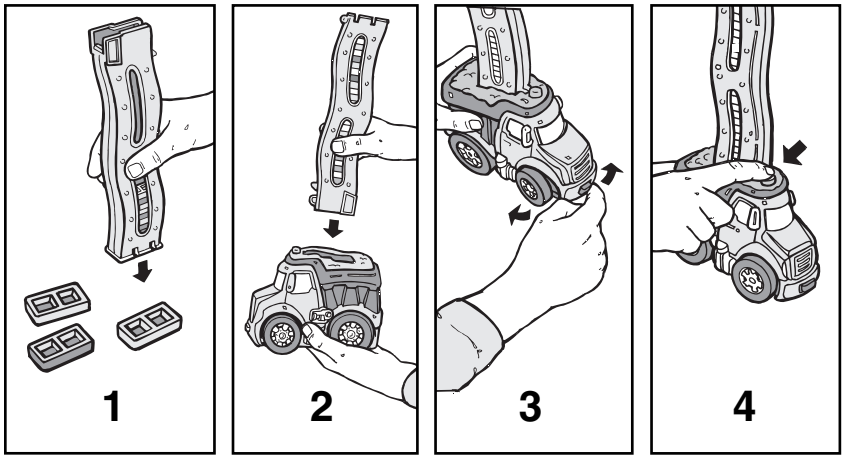
Setting up your dominoes

Set up your dominoes by hand maintaining a space of 1 domino width (1 inch) between each piece. This will allow your dominoes to fall more freely.



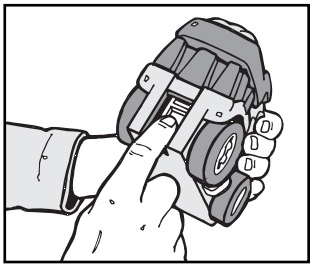
Operating the Domino Laying Truck

1. Spill dominoes onto a flat surface, make sure they are all lying flat. Using the top end of the loader, place it above a domino and press down firmly. Domino should slide in place. Repeat the process until loader is full.
2. Flip loader around so that closed end is facing down. Place loader into top of truck with the wider side facing the front.
3. Set the front wheels of the truck and watch as the domino trail follows you.
4. Press the start button on top of truck and watch as the truck starts to move and lay dominoes behind it.



If your Dump Truck gets jammed

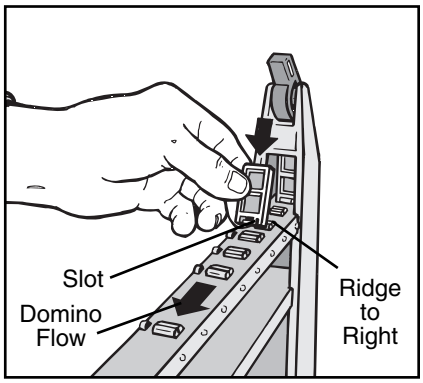
- Turn off the Truck.
- Take off the loader.
- Pick up the Truck.
- Tip the Truck upside down (domino should fall out), if not pull out domino from rear of truck (as shown).

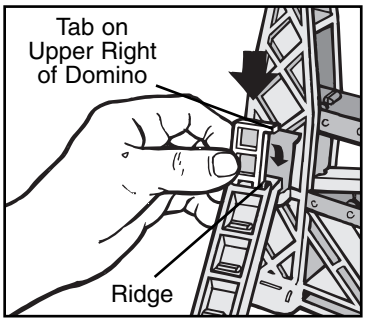


Setting Up the Domino Tower and Ladder

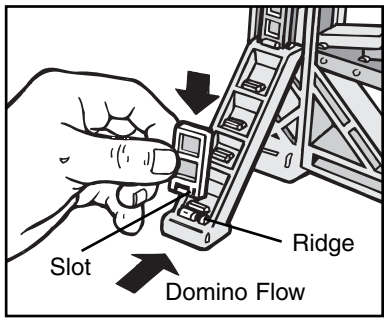
Snapping Dominoes into place.

1. Make sure the slot in the domino is on the left, facing you.
2. Align domino with the slot in the track and press down firmly to snap into place.





Note: The Top Domino has a tab on the upper right Corner.



Note: The Lead-In Domino is a Regular Domino.

Tilt the tower to one side to arrange the dominoes vertically and then place the Domino Tower on a Flat surface.

Secure the domino ladder in position.

Ensure that the lead-in and lead-out dominoes are no more than 1 inch away from tower and ladder.
